

Pastor - Group Leader Discussion Guide

Conversation with a Small Group Leader: The heart behind these questions is to focus on what makes this group healthy and fruitful and what things may be affecting the group's progress.

How's it going?

- How are you and your family doing? How are you depending on Jesus in your life circumstances currently?
- Share a story or two of how your group members lives are being changed through Jesus using the group.
- What are some challenges that either you or your group members are experiencing at this time?

Notes:

What are some Next Steps for you and your group?

Personal Next Steps

- What do you think might be a next step for you personally on your spiritual journey?

Group Next Steps

- How are you loving each other as a group?
- What are you currently studying and what do you think would be most helpful for the groups future spiritual growth?
- Has your group rallied around a local mission opportunity in which they can serve together? If so, which one(s) did they choose and when is the next serving opportunity?

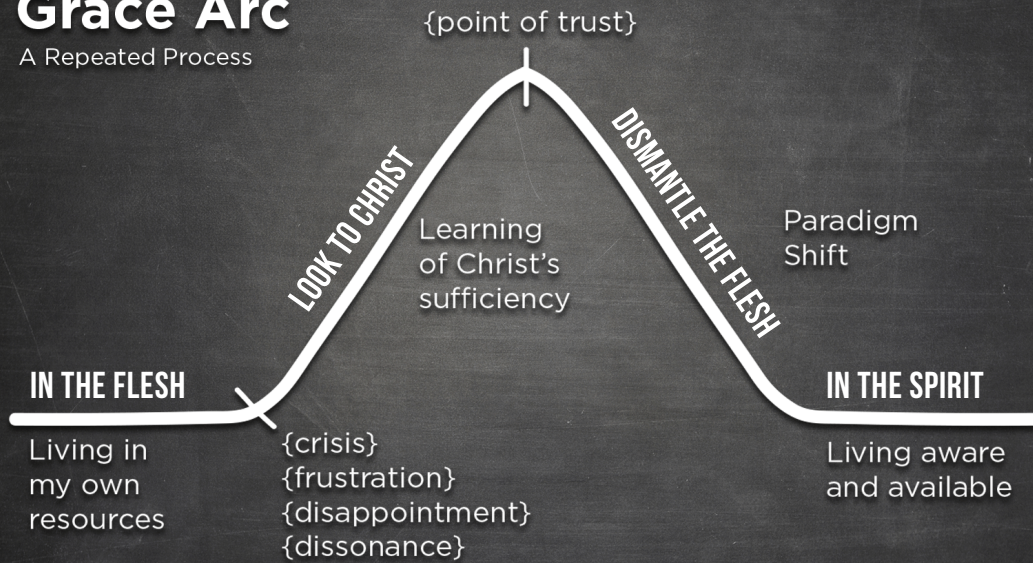

Leadership Development

- At what stage is your group on the 2-year group life cycle? Does your group know that it has an apprentice who will launch a new group at the end of that cycle and if so, what is the groups next step in helping with that?
- What are some ways you plan to develop your apprentice as a leader?
